

Alpine Green Solutions LLC Presents:

Green Team Workshop '09 for your sustainable, green future

Accelerate your Green Committee's impact with this full day workshop for managers, employees, vendors, clients, customers and the community. Learn how you can increase your organization's "green" impact while reducing your ecological footprint!

Single-day objectives include:

- **Delivering** the skills to achieve real results
- **Motivating** full staff participation
- **Advancing** your company into larger green projects
- **Reducing** operation and maintenance costs
- **Minimizing** your company's ecological footprint
- **Conducting** community outreach programs
- **Demonstrating** your company's innovation and leadership in sustainable practices
- **Developing** a long-term green sustainable strategy
- **Navigating** the red tape for the potential financial benefits offered by your municipality

The sensible road to going green.

Modules and Topics include:

- Communicating the difference between “Green” and “Sustainable”
- Best Practices from many industries: what works, what won’t—and why!
- How to measure the real impact of your existing programs—and improve them
- How to justify costs (capital vs. maintenance)
- How to secure facilities/operations/employee buy-in
- How to identify and avoid “Greenwashing”
- Facility Walk and Hidden Treasure modules
- Setting S.M.A.R.T. goals for the short, mid and long term
- Identifying future opportunities to green your products, services and facilities
- Review of current local/national organizations that can provide assistance/partnerships
- How to begin to research the municipal/federal assistance that might be available
- How to provide immediate, measurable results in cost savings and environmental responsibility.

Alpine is pleased to host this workshop, or offer it in the comfort of your facility.
